

# SpringWrap

## Tree Trunk protector

SPRINGWRAP™ is a coiled cylinder that easily wraps around young tree trunks for protection. Simply pull open, position & the guard re-coils back into shape around the tree when released.

SPRINGWRAP™ is made from high density polyethylene for long life and chemical resistance.

### Features & benefits

- Protects young tree trunks from vermin & herbicide
- Suppresses lateral growth
- Encourages straight trunk growth
- Quick & easy to install
- Expands with trunk growth
- Ideal for olives, citrus, mangoes, macadamia, almonds & other nut trees
- UV stabilised polyethylene plastic
- Easy to remove and re-use
