### Key Features

**Strength & Stability:** The laminated square profile design offers superior rigidity and strength.

**Easy Installation:** Straight edges ensure secure placement and ease of handling during installation.

**Eco-Friendly:** Produced from sustainable bamboo, aligning with Global Green's commitment to sustainability.

**Wide Application:** Ideal for supporting trees, shrubs, erosion control fencing, and other outdoor applications.

### Advantages

- Reduces the risk of snapping under tension.
- Uniform dimensions for consistent performance.
- Long-lasting, minimizing maintenance and replacement needs.

### Applications

**Horticulture:** Tree and plant support in nurseries and reforestation projects.

**Landscaping:** Used in urban greenery installations, parks and gardens and revegetation projects.

**Erosion Control:** Reinforcement for erosion fencing and stabilization projects.
