BamPRO Stakes - Square

The BamPRO Square Range: Laminated and Solid

BamPRO Sqaure Stake

BamPRO stakes are designed to meet the highest standards for durability, stability, and environmental sustainability.
These stakes are a versatile solution for street trees, landscaping, environmental and horticulture restoration projects.

Hardwood supply problems

Native forest logging coupe's are closing across Australia. Sourcing material to make hardwood stakes is becoming increasingly difficult and not viable in the longterm.

Making the switch to BamPRO bamboo stakes is not just environmentally responsible, but strategically essential.

Safety Advantage

Hardwood stakes have knots or irregular grain which can cause splitting and spearing hazards during installation. The uniform bamboo structure prevents sudden breakage common in hardwoods that have caused serious injuries.

Product Specifications

Material: Made from sustainable bamboo. **All 38x38mm & 45x45mm stakes are bio-stained black.**

LAMINATED BAMBOO (Natural colour)		
BAMPRO1202525	Bamboo Square stake, pointed 120cm 25x25mm	10pk
