EzyGuard

High density polyethylene plant/tree guard

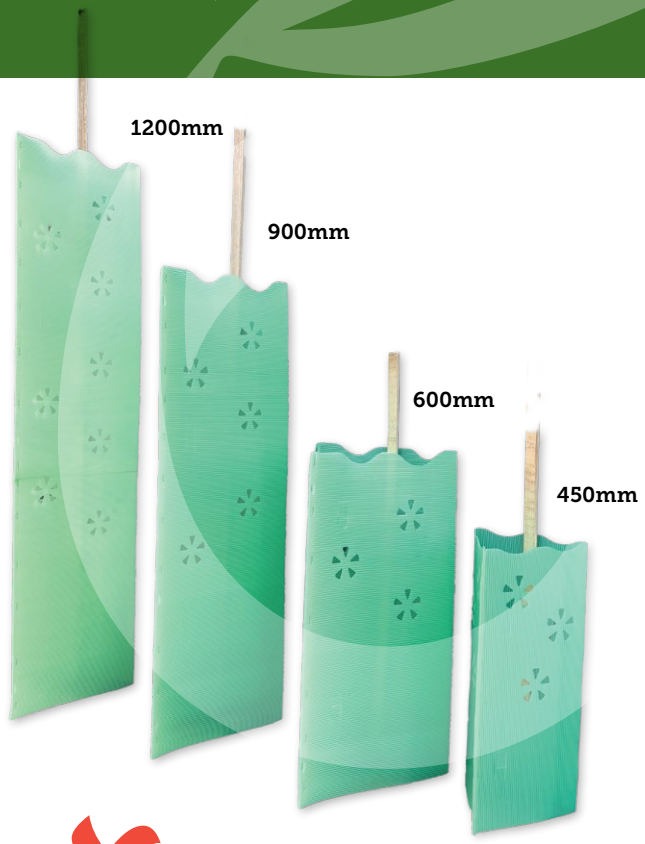
Australian designed unique treeguard - supplied pre-assembled and flat.

EzyGuard: Reusable Treeguard

Welded seam ready to pop open and insert stake. EZYguard's unique patented InstaLOCK clamps the stake secure to prevent spinning when using a normal hardwood stake on a 450mm guard, saving the cost of custom-made stakes as used on conventional flute guards.

Features an additional stake slot to secure the guard when using bamboo stake or in high wind areas and potential animal rubbing.

EZYGuard450	Treeguard 450Hx200mm sides	50pk
EZYGuard600	Treeguard 600Hx300mm sides	50pk
EZYGuard900	Treeguard 900Hx300mm sides	25pk
EZYGuard1200	Treeguard 1200Hx300mm sides	25pk
EZYGuard450W	Treeguard 450Hx300mm sides	25pk



- **Ezyguards:** are made from **high density Polyethylene (HDPE)** @ 420gsm
- Tear resistant polyethylene
- Does NOT deteriorate quickly under UV exposure
- Made to last, providing long-term protection, reuse and cost efficiency
- Save by using standard hardwood in our patented InstaLOCK
- Ezyguard is the best choice on the market today.

- **Conventional Corflute guards**: are made from **Polypropylene (PP)** @ 280gsm
- Tears easily polypropylene
- Deteriorates quickly in UV light
- Splits and degrades releasing microplastics into the environment
- Costly wide stake required
- Bamboo stake needed for extra support.

USE WITH greenMAT or JutePro: Weedmats

Both weedmats, designed with a central slit, and liftable flap for easy use for the plant and slots for stake positions.

GREENMAT220	Greenmat 220x220mm Recycled paper	50pk
GREENMAT365	Greenmat 365x330mm Recycled paper	25pk
JUTEPRO370	JutePRO Weedmat 370mm x 370mm	100pk
JUTEPRO600	JutePRO Weedmat - 600mm x 600mm	50pk
